NOTICE OF SUSPENSION

(b) (6)

This letter confirms verbal notification by the Des Moines District Office, Food Safety and Inspection Service (FSIS) on November 23, 2020, of the decision to suspend the assignment of slaughter Inspection Program Personnel (IPP) at your firm, EST 2444, Strauss Brothers LLC in Franklin, WI herein referred to as the/your establishment. This action is taken in accordance with the Rules of Practice, 9 CFR 500.3(b), which indicates that FSIS may take a withholding action or impose a suspension without providing an establishment prior notification if it is handling or slaughtering animals inhumanely such as occurred at your establishment on November 23, 2020.

Background

The *Federal Meat Inspection Act* (FMIA) (Title 21 of the United States Code {21 U.S.C.} 603 et seq) provides that for the purpose of preventing the inhumane slaughtering of livestock, the secretary shall cause to be made, by inspectors appointed for that purpose, an examination and inspection of the methods by which amenable species cattle, sheep, swine, goats, horses, mules, or other equines are slaughtered and handled in connection with slaughter in the slaughtering establishments inspected under this Act. The Secretary may refuse to provide inspection to a new slaughtering establishment or may cause inspection to be temporarily suspended at a slaughtering establishment if the Secretary finds that any cattle, sheep, swine, goats, horses, mules, or other equines have been slaughtered or handled in connection with slaughter at such establishment by any method not in

accordance with the *Humane Methods of Slaughter Act* (HMSA) of August 27, 1958 (72 Statute, 862; 7 U.S.C. 1901 to 1906) until the establishment furnishes assurances satisfactory to the Secretary that all slaughtering and handling in connection with slaughter of livestock shall be in accordance with such methods.

Under the authorities of the Acts, FSIS has prescribed rules and regulations for the humane slaughtering of livestock, as contained in 9 CFR, Part 313, and the HMSA of 1978. FSIS has also developed Rules of Practice regarding enforcement prescribed in 9 CFR Part 500. The Rules of Practice describe the types of enforcement actions that FSIS may take and include procedures for taking a withholding action and or suspension, with or without prior notification, as well as the procedures for filing a complaint to withdraw a Grant of Federal Inspection.

Findings/Basis for Action

At approximately 6:40 am on November 23, 2020, the FSIS Front Line Supervisor (FLS) was conducting Humane Handling Verification task, Conscious Animal on the Rail (HATS Category IX) and observed lambs being stunned with electricity applied to the head followed by a halal cut of the throat. The FSIS, Consumer Safety Inspector (CSI) witnessed the first lamb stunned with the head only electric current lose posture prior to receiving the halal cut. The lamb was hung head down to facilitate exsanguination for the initial portion of the rail. At the right-angle juncture of the rail, the lamb was placed on a new gambrel and inverted so that it now was hung by the front legs. The FLS was standing at the logger's station as the lamb moved towards her. She noted the lamb made several efforts to stretch its chin towards its chest, exhibiting a righting reflex. The lamb opened its mouth and vocalized more than once. The FLS touched its corneas. The lamb blinked and was deemed conscious. The FLS returned to the restrainer to instruct an establishment employee to render the lamb unconscious with a hand-held, penetrating, captive-bolt gun.

The FLS took regulatory control of the stunning station with U.S. Reject Tag #B31107585 and informed (b) (6) this finding was not compliant with regulation 9 CFR 313.30(a)(4). The FLS notified the District Office through supervisory channels for further guidance.

Conclusion

The observations detailed above indicate an egregious violation of the humane handling requirements specified within the provisions of 21 U.S.C. 603, Section 3 (b) of the FMIA, and 7 U.S.C. 1901 and 1902 of the HMSA of 1978 and fail to comply with the regulatory requirements of 9 CFR 313.30(a)(4).

The establishment has a humane handling program that meets the four criteria as described in the Federal Register Notice of September 9, 2004 but was not implementing the program as written at the time of the incident.

Based on the above findings, the Des Moines District Office has determined to suspend the assignment of inspectors for your slaughter operations, as per the Rules of Practice 9 CFR 500.3(b).

You may provide this office written corrective and preventive measures concerning the NOS and we will determine further action, if any, based upon your response. Your written response should include:

1. An initial assessment of the incident, including determine of the cause.
2. Immediate corrective actions taken.
3. Preventive measures to prevent reoccurrence.
4. Any training of employees and materials used.
5. Type of monitoring activity for stunning, along with a documentation record.

Steve Olson This is Franklin. The odds are greater this will not be beneficial. Not with Rivera involved.

My apologies to my neighbors for the inconvenience of having to talk with FPD to get into their own street. It's a shame that some think their rights are more important. One organizer took the PD to task and even lied and said the Chief gave them permission to protest in front of my house. That person is a known liar and continues down that path. He's got the ear of an alderman too. That's a shame. About a dozen had their say at Lions Legend park and I support their right to protest there. They don't have any idea what they're talking about but they have the right to do it. Their ring leader continues to ride his scooter past my house. That w... See More

Active 46 minutes...

Like I said it is a sensitive issue and when other people fire shots I fire back. When some people imply that we are stupid for trying to defend our surroundings I take offense quite frankly I can't wait for this to be over .the emotions are not healthy with this issue. That's great you are working on reducing the impact. I really hope going forward the city has better communication I my self really miss the community newspaper.

You have not helped your own situation by what you and your wife have said on social media. I promised you that I'd work on your concerns. I have. Then you stuck the project up my ass at every opportunity and then had your wife join in. What would you like me to do

don't want complain but I would like to be a part of the solution. Thank you

I guess it would help if you knew who this is it's tom benning.

SAT AT 10:51 PM

Tom, I've been nice and polite to you. I've listened to your issues. I've been respectful. I've read for two weeks a load of crap from you and now your wife. I have taken care of two of the three issues we've discussed based on this message but given the behavior of you and your wife I'm not motivated to include them in the legal documents that may get passed Monday night. What motivation do I have?

You can now message and call each other and see info like Active Status and when you've seen messages.

Like I said it is a sensitive

P. 6

Nope, sorry. Our conversation had nothing to do with them. You and me and you never quit and you added your wife.

I even gave you heads up that you were pushing too much. You kept it up.

Steve I didn't add my wife she pretty much does her own thing

That and the open sewer crack. There's no open sewers in Franklin. We couldn't afford the fines. And you can tell your wife to knock it off. It's not working. I'm not buying it. I'm out. Done.

I honestly don't know anything about a open sewer that would be ridiculous. Good night. And go trump
